## "VEST POCKET FIGHT"

Cardenas-The Little Torpedo Boat

Winslow Has fun With three Spanish Const Guard Gunboals. Copyright, 1828, by the Associated Press.) ON BOARD THE ASSOCIATED PRESS DISPATCH BOAT SPENCER, OFF CARDENAS, May 9, via WEST, Fla., May 10 .- The little torpedo boat Winslow, yesterday morning precipitated the first naval engagement fought in Cuban waters. On a reconpoissance in Cardenas harbor she drew the fire of three Spanish coast guard vessels and a lively vest pocket sea fight followed with the tlny gunboats.

As the Winslow was decidedly in the minority she ran for the open sea, where her big station mate, the gun-boat Machias, which had been called up by the firing, took a hand in the game with her four-inch rifles and tossed several shells over the low sand spit behind which the Spanish boats were sheltered. It was impossible to see where they landed. The Winslow

see where they landed. The Winslow was not touched, but she claims to have knocked a few splinters out of the larger coast guard boat.

The most important result of the Winslow's reconnoissance was the discovery that Cardenas harbor is mined. If there were any batteries on shore, the Spaniards did not think it worth while to disclose their position. That there are mines in the channel is important in view of the report that it is Cardenas and not Matanzas where the landing of United States forces will be made.

Cardenas is one of the largest bays along the coast, the little town of the same name, lying at the southern end. From the western shore Icleas Point reached out like a long index finger, al-most touching. Pledras Key Light, which in peaceful days benconed the harbor entrance. The light house has gone in darkness and deserted for

many nights.
Feeling safe in the desolution of the
light house and the silence ashore, the
little Winslow crept quietly in, under
the early morning haze, for a closer inspection of the harbor. There evidently the early morning have, for a closer inspection of the harbor. There evidently had been a lookout among the dunes along the sand pit, for the Winslow was allowed to feel her way into the harbor, taking notes of changed buoys and false marks, designed to lead a hostile fleet on to torpedo fields. But suidenly there was a puff of smoke from among the mangrove clumps along one of the filets and a six pound shell screeched out of the bushes. Crack came another from the shelter of a tiny key in the bay and a third from further down the coast. Then three coast guard boats darted from ther cover, under a full head of steam, like a big gar pike after a minnow. The Winslow's crew jumped to the two-pounders fore and aft and let the Spaniards have it, port and starboard, as they chased in. The little gunboats came along, shooting, but after the usual Spanish fashion, hit nothing but the adjacent scenery. Then the Winslow scuttled along for the open sea, using her after gun as a stern chaser and defantly shooting as she went along.

The Spanish boats wasted about sixty shots, and the biggest boat, mounting a twelve pounder, kept up the bombardment as long as the Winslow was in range. The Spaniards, who had probably heard the news from Manila, were as mad as a uest of hornets and kept up the chase until all four of the little craft were rocking in the swell past Piedras Keys. Just then there was a crash and a roar to seaward and the pursuing fleet. The little boats turned about like water sydders and rear for

smoke, sent a shell smashing into the pursuing fleet. The little boats turned about like water spiders and ran to shelter beyond the sand spit. The Machias sent a few shells skipping in between the sand dunes, but with what effect could not be seen effect could not be seen.

### A BLOCKADE RUNNER

Turned Back by the Machias-Tried to Get to Matanzas.

(Copyright, 1898, by the Associated Press.) ON BOARD THE ASSOCIATED PRESS DISPATCH BOAT SPENCER, OFF CARDENAS, May 9, via KEY WEST, Fla., May 10.-The British tramp steamer Strathdee, Captain Currie, attempted to run the blockade yesterday, but was overhauled by the gunboat Machias. The captain of the Strathdee claimed that the vessel was loaded with sugar and that he had on board a number of Spanish refugees from Sagua la Grande. He also said

from Sagua la Grande. He also said that the steamer was bound for Matantas, where it was desired to disembark some of the refugees.

The commander of the Machias was skeptical of this story, however, and warned the captain of the Strathdee that if he attempted to take the vessel into Matanzas, she would be fired on, whereupon the Strathdee put about, and steamed away in the direction of New York.

The Features of the Money and Stock Markets.

NEW YORK, May 10.-Money on call

quidation in the stock market. This was particularly noticeable in the late dealings after the plunge in the price of July wheat at Chicago from \$1.25 to \$1.06. The stock market during the early part of the day absorbed a very large line of offerings to liquidate profits and the selling for London account was also heavy ngain total sales for was also heavy ngain total sales for was also heavy again, total sales for that account being estimated at over that account being estimated at over 25,000 shares. The general demand for stocks through commission houses was sufficient to take up these offerings at a well sustained level of prices. There was evidence also of the operation of bull pools here and there in the list, notably in some of the low priced stocks which are usually almost inactive and which are usually almost inactive immovable.

Immovable.

The strength imparted to these stocks helped to sustain the market and with the rally from the opening came a period of aggressive strength in stocks, which lifted prices substantially above last night's level. The late decline was effected on a much smaller volume of offerings than was well absorbed in the morning dealings. Short selling by the bears was conspicuous. A slump of over four points in Tobacco also had its effect in the late weakness. There were fractional recoveries before the close, fractional recoveries before the ractional recoveries before the close, a which was firm at net losses of over a point in some cases. Time loans were offered to-day at 4 per cent up to four months and prime mercantile paper was also quoted-lower at 5 to 6 per cent. There was, nevertheless, a decline in the rates for sterling exchange amounting to about half of yesterday's gain. This development in sterling exchange in face of the casier tendency of money, the large selling of securities here for foreign account and the announcement of the shipment from Australia yesterday of \$2,500,000 in gold for San Francisco is highly significant of the continued strength of the country in the world's international exchanges.

The market for railroad bonds showed a reactionary tendency in sympathy with stocks, but the business was not large. Total sales, \$2,500,000.

Breadstuffs and Provisions. CHICAGO-Wildly fluctuating bushel, wheat to-day closed at \$1 14 for July, a loss of 64c c

Chicago—Wildly fluctuating 20c a bushel, wheat to-day closed at \$1 14 for July, a loss of 6½c compared with the final figures yesterday. A collapse from \$1 25, a new record for July to \$1 05, chiefly in the last half hour, was the main spectacular feature. Sales to realize profits principally caused the fearful slide. A hair-raising quick rally of 10c due to covering by shorts followed just before the closing gong. May closed at \$1 85, the highest point this season, a net advance of 10c. Leiter reported sales of 750,000 bushels cash wheat abroad at an advance since yesterday of 2c, apparently proving that foreigners still wanted wheat, despite the drop at Liverpool. Corn and oats ruled weak on realizing. July corn lost 1½615c, oats ½675c. Provisions opened duil, finished at declines of 15c for park and 2½65c for lard, with ribs unchanged.

Intense excitement in the wheat pit marked the day from the very start. Liverpool showed a decline at the opening of 6½c a bushel for May and 2c for September. This was offset by a preliminary jump of 9½c in July. But the second cables showed a sudden slump in July also. This unlooked-for procedure on the part of the English market caused a weak opening here. July began with declines of 263c. Trades were on a range of \$1 1761 18. Four subsequent quotations reduced the price to \$1 164. Here the supply of wheat suddenly vanished and quotations steadily advanced to \$1 25, the highest boint reached by 8he July option. May wheat was only heard from at long intervals. Trading in it began 2c lower at \$1.75. The succeeding gales were at \$1.75. \$1.80 and \$1.85. It had occasional reactions to \$1.95, but was immediately picked up. It was about 11° clock when July touched \$1.25. It rebounded to \$1.25. \*1.25.\*\* \$1 80, but was immediately picked up. It was about 11 o'clock when July touched was about 11° o'clock when July touched \$1 25. It rebounded to \$1 24, rallied to \$1 25 and then took a steady downward course. Stop orders on long wheat seemed thick and close under the mar-ket. The downward flight was checked Outre. Stop orders on long wheat firm at 2@3 per cent; last loan 3 per cent. Prime mercantile paper 5@6 per cent. Sterling exchange easier, with actual business in bankers' bills at \$4.84\cdot 84\cdot 484\cdot 481\cdot 484\cdot 484\cdot 484\cdot 484\cdot 484\cdot 484\cdot 481\cdot 484\cdot 484\cdot

were a full cent apart. When the liquidation was exhausted shorts tried to even up and the market rushed up again to \$1 15, closing at \$1 14, a net loss of \$4c. May sold between \$1.73 and \$1 85, closing 10c net higher at \$1 85. September, which sold early at \$374c, tumbled to 88c and closed worth \$904c. Trading in corn was moderate. Fluctuations followed wheat on a small scale. The marin corn was moderate. Fluctuations fol-lowed wheat on a small scale. The mar-ket-opened lower, rallied to yesterday's close and eased on finally actting under the opening. Country offerings were large. Chicago received 1,166 cars; sea-board clearances were 1,000,000 bushels. Elevator, people sold treely, on the early bulge. When wheat slumped near the close, corn became very weak, July touching 35c, reacting slightly on cover-ing. July opened at 35@354c, compared with 36%@37c yesterday, sold up to 37c, declined to 35c, closing 14,@1%c net low-er at 35%c.

er at 35%c.

Oats market shaped its course after wheat and corn. A bulge followed the opening weakness, but free selling by July longs, helped by the break in wheat caused a-slump near the close. able weather checked buying. Local receipts were 669 cars. July opened 4c lower at 274 @274c, rallied to 28c and sold off to 27%c at the close, a net loss of No life on the buying side of the mar

ket could be infused in provisions. The hog receipts continue too heavy and speculation too stagnant for any considspeculation too stagmant for any considerable sympathy with grain. The western hog receipts for the day were 75,000 head against 66,000 head last year. Liverpool quoted a dull market for meats and lard 3d lower.

Closing prices showed net losses of 15c in July pork and 2½@c in lard; ribs unchanged. Fetlants a seedle for more than the consideration of the constant of the constant
